

2018 Scout Camp-Ins

Kaleideum invites all young Scouts to join us for a fun-filled Scout Camp-In! Campers will explore science in a whole new “night” light! Camp-ins include activities pertaining to Scout requirements and a chance to experience science shows! Snack, breakfast and a Camp-in Patch (Scouts only) are included!

This year’s theme is **Engineering!** Participants will explore different types of engineering careers, the **Engineer’s Code of Ethics**, and what it means to be a registered professional engineer. We’ll delve into some creative ways to learn about engineering with special group programs, classroom workshops, and interactive activities. Participate in experiments and demonstrations of energy transformation and mechanical manipulation, including levers and inclined planes.
