**Dino Discoveries**
Take a trip back in time to explore the unique and strange animals that once roamed the planet. Little paleontologists will learn about dinosaurs and prehistoric creatures through stories, art projects, science experiments, and more!

**Bubble Trouble!**
Can you make a square bubble? Can you blow a bubble the size of your head? Find out this and more as we measure out the perfect bubble solution, engineer our very own bubble wands, and create slithery bubble creatures and other soapy formations!

**Art-venture**
It's hands-on, minds-on along this art adventure! Draw, sculpt, and experiment with different tools and techniques to bring imaginations to life. Learn how to create paper mache bowls, clay creatures, and explore drawing and screen-printing techniques.

**Monster Mania**
RAHHRRRR! GRRROWL!! Grrr? What sound would you make if you were a monster? Create your own monster identity with us this week and practice some monster moves. We’ll even make a few mini monsters of our own invention!

**Up, Up & Away**
How do you get from here to there? A bus, a car, a trolley, a train, a plane, a hot air balloon—maybe even a rocket! Join us as we explore the world of transportation, and head home with new ideas about motion!

**Wizard Academy**
In Wizard Academy, we’ll explore some of the core subjects including potions and charms, as well as, extracurricular studies in fantastic beasts and quidditch. Venture into the wizarding world through imaginative play and science experiments. Muggles welcome!

**LEGO Lab**
Ready, set, build! Let your imagination run wild while creating cars, conducting LEGO® science experiments, and completing LEGO-themed challenges. Test the basic principles of engineering as you work together to plan the ultimate LEGO city.

**Mess It Up!**
Explore the great outdoors by digging in dirt, playing in mud, and meeting some slippery, slimy animals. Campers will finger-paint, make slime, and partake in some messy experiments.

**Slime Time**
Get ready for sticky, stretchy, ooey, gooey fun as we experiment with different slime recipes and explore slime in nature.

**Medical Marvels**
Discover what it takes to build a career in the medical field and how medical advances are shaping our world. Explore the lab side of these medical marvels as you extract DNA, cultivate bacteria, design a robotic hand, and, best of all, “scrub in” for a dissection.

**Mechanical Mechanisms**
Put your engineering skills to the test! Using the engineering design process campers will imagine, design, and test their own contraptions. Get ready to create in this hands-on experience.

**Complex Creations**
Do you love to take things apart to see how they work? Join us as we trace complex inventions back to their ancient roots! Put on your hard hat and join us as we explore how simple machines lead to complex creations!

**Maker Revolution**
Have you ever wondered how to make wearable technology, create 3D designs, or produce creative artwork? Become a part of the Maker Revolution, then acquire skills you can use to create, build, design, and discover. Draw inspiration from scientists, engineers, and artists in this unique STEAM camp!

**Nature Explorers**
Campers will enhance their perspectives on nature through outdoor exploration, gardening, sensory strolls, vermicomposting, animal encounters, insect observation, and creating art from natural materials!

**Wilderness Survival**
Learn fun practical skills to survive, whether you find yourself in the cold, barren forest or on a tropical deserted island! Filter your own water and learn how to build the best shelter.

**Creative Coding**
Join us at the intersection of technology, art, and innovation! Experiment with coding and create a one-of-a-kind piece of art created by you ... and a ROBOT!

**Ocean Commotion**
Do you know what lives in the sea? Sharks, jellyfish, coral, whales, fish, and even manatees. Some are big, and some are small, come and discover the mysteries of them all!

**Jump & Move**
Jump, swing, skip, and tumble in this camp for kids who love to move! This week will include relay games, yoga, hula hooping, obstacle courses, and dancing. Come exercise your body and mind with us!

**Design It!**
This hands-on experience invites campers to tell stories by making and building. Young creators will design and construct scenery, puppets, costumes, props, and anything else they can imagine.

**Superhero Bootcamp**
Be sure your sneakers are tied tightly this week... and be ready for some action! We'll create our own superhero identity, build and run obstacle courses, design our superhero armor, and train to be the best heroes and heroines in North Carolina. Pose for your action shot!

**Build It!**
Design and engineer buildings and structures of all sizes from every material imaginable! Learn how to build a structure from the ground up and ways to keep it standing through the tests of time and weather. With stories to inspire us and a variety of materials to work with, we'll build a city full of our own architecture!

**Dance n’ Beats**
We'll make some noise and move our feet while we create instruments, lay down some beats, discover new music, and experiment with styles of dance. From ballet to hip hop and classical to rock – we'll dance and sing the whole week long!

**Seussical Science**
Oh, the places we'll go! Come on a fantastic adventure from the pages of Dr. Seuss favorites. There will be stories to read and fun science experiments, too. We'll take a microscopic search for Who-ville and Whos, make our own Truffula Trees, and experiment with Oobleck!
Rising K-2nd Graders  9 am–4 pm  
Member $200  |  Non-member $240

**Blast to the Past**  
Join us as we travel from the past to the future! We’ll begin with dinosaurs and end up all the way into outer space and beyond. Hop into our time machine as we blast off to the past, visit the future, and return energized to the present!

Rising 3rd-5th Graders  9 am–4 pm  
Member $200  |  Non-member $240

**STEAM'D Up!**  
Bring out your creative side for STEAM week as we explore dirty, messy, explosive science! Create colorful slime, learn the physics behind pendulums while creating giant works of art, and use your math skills to make transforming shapes!

Rising 6th-8th Graders  9 am–4 pm  
Member $200  |  Non-member $240

**Exploding Science**  
Prepare to have your mind blown as you explore the science behind explosions. Create a lasting impact with elephant toothpaste, build suspense with Mentos geysers, and take a field trip to Vulcan quarry to learn about real life applications.  
*On Friday, campers will be transported by charter service to/from the quarry on Patterson Avenue in Winston-Salem.*

**To the Extreme!**  
Explore the most extreme events Earth has to offer! Become a storm chaser, learn about hurricanes and tornadoes, put your engineering skill to the test, and design an earthquake proof structure. Learn what it takes to survive in some of Earth’s harshest environments!

**Kaleideum Arcade**  
We’ll spend the week using real tools, a variety of supplies, and our imaginations to create cardboard arcade and carnival games—then invite our friends and family to play them! Skeeball anyone?

**Medical Marvels**  
Discover what it takes to build a career in the medical field and how medical advances are shaping our world. Explore the lab side of these medical marvels as you extract DNA, cultivate bacteria, design a robotic hand, and, best of all, “scrub in” for a dissection.

**Full STEAM Ahead**  
Play like a scientist with droppers, measuring spoons, flasks, and test tubes while creating explosive works of art! We’ll experiment with sound, learn how rainbows form, and make our own playdough! Get ready to experiment and create!

**Time Travelers**  
We’ll go through the ages and learn about the great discoveries of the past. From Renaissance painters to Edison and Tesla and even beyond Earth, we’ll uncover advances in art and science through time and space.

**TechVenture**  
Step into the world of coding and robotics in this innovative STEM camp! Campers will tinker with different robots and other programmable pieces of technology. Explore what’s possible today and envision the exciting future of tomorrow.

**Summer Olympics**  
Go for the Gold! Design your own shirt and flag to represent your team. Learn the science behind some favorite Olympic games; discover the geography, culture and climate of Tokyo; and create your own Olympic sport.

**Maker Revolution**  
Have you ever wondered how to make wearable technology, create 3D designs, or produce creative artwork? Become a part of the Maker Revolution, then acquire skills you can use to create, build, design, and discover. Draw inspiration from scientists, engineers, and artists in this unique STEAM camp!

---

**Animal Adventure**  
Get your binoculars ready for an adventure! Join us for a journey through different environments. We'll travel from the Arctic to the jungle as we explore various habitats and the animals who live there!

---

**Color My World**  
Paint your way through the color wheel! Learn the science behind rainbows and explore different styles of painting. With a paint brush in hand and a palette of creativity, campers will flourish while producing masterpieces of their own!

---

**To Infinity and Beyond**  
Prepare to blast off as we venture into outer space with the Sun, stars, moons, and planets. Hop in our rocket ship as we count stars, explore constellations, journey to other planets, and check out the 3rd planet from the Sun–Earth.

---

**Space Rangers**  
Spend the week on an intergalactic journey! We'll travel to the stars and back again to learn more about our solar system and create projects and costumes akin to our favorite characters from distant galaxies and alternate universes. Challenge yourself in an outer space obstacle course, practice your light saber skills, and hunt for moon rocks. *May the Force be with you!*

---

**Petite Palettes**  
Calling all young painters! Experiment with different kinds of paints and techniques, as well as the messiest of art supplies, to create stunning works of art. Make some room on the refrigerator!

---

**Let’s Get Glowin’**  
Explore things that glow-in-the-dark and design colorful crafts and wearables that radiate and shine! We'll experiment with our own rainbow creations, investigate the vibrant world of illumination, and throw a glow-in-the-dark dance party on Friday afternoon. Prepare to glow!
SUMMER CAMPS

Mission to Mars
More missions have been attempted to Mars than anywhere else in the solar system! Explore how lessons learned from previous missions to the Red Planet have informed the planning for InSight and MARS 2020. From modeling the orbits of Earth and Mars, to designing and creating model rovers and landers, we'll take the next step as Martian explorers!

Inventors' Workshop
Put your ingenuity to the test with a week of engineering, prototyping, and inventing. From burglar alarms and musical devices to light-up creatures and miniature amusement park rides, the sky is the limit on what you can make!

Potion Commotion
We'll learn about the wonders of chemistry and transform materials before our very eyes! Explore the properties of matter including color change, thermal reactions, and even an explosion or two! BOOM!
